COA.TEX® MEMBRANES

WATER RESISTANT BREATHABLE LIGHTWEIGHT

SOLE

Flexible, grip and profiled rubber outsole with cushioning EVA midsole, slip and step resistant on every trail.

COA.TEX® MEMBRANE

The durable, water resistant and windproof high-tech membrane is particularly breathable and protects the foot from waterlogging through a microporous fabric structure. The membrane transports sweat and moisture to the outside. What remains is a pleasantly dry and comfortable foot feeling.

UPPER

The brushed surface of the suede has a pleasant warm touch and a fine structure. The material makes this shoe more breathable and durable.
